

## Christopher Cooper

Christopher Cooper is Professor of Medicine and Physiology at the David Geffen School of Medicine, University of California, Los Angeles (UCLA), USA. He is also Director of the UCLA Exercise Physiology Research Laboratory and Medical Director of the UCLA COPD Program. Professor Cooper earned his medical degree from St Thomas' Hospital Medical School, University of London, UK, where he also completed his postgraduate training in internal medicine. He trained in pulmonary and critical care medicine at the Universities of London and Sheffield, UK, and joined the faculty of UCLA in January 1990. In 2009, he was awarded the Sherman M Mellinkoff Faculty Award, the highest honour bestowed on faculty by the David Geffen School of Medicine at UCLA. He is a Fellow of the Royal College of Physicians, UK, the American College of Sports Medicine (ACSM), and the American College of Chest Physicians. Professor Cooper is an active member of the British Thoracic Society, the American Thoracic Society, and the European Respiratory Society. In addition, he is a certified Health and Fitness Director of the ACSM and Associate Editor of the ACSM's Exercise Management for Persons with Chronic Diseases and Disabilities. Exercise physiology and exercise testing, COPD, emphysema, pulmonary rehabilitation, and oxygen therapy are among his main research interests and he has published a book entitled *Exercise Testing and Interpretation: A Practical Approach* (Cambridge University Press, 2001).
